

International Society for Analytical Cytology

CALL FOR PAPERS ISAC 2008

The XXIV International Congress of the International Society for Analytical Cytology (ISAC) will be held from May 17-21, 2008 in beautiful Budapest, Hungary.

The Organizing Committee calls upon all interested scientists to submit high quality papers for oral presentation at the Congress and publication in the Proceedings issue of CYTOMETRY Part A. CYTOMETRY Part A is the official journal of ISAC and is widely available in both print and electronic forms. It is indexed by PUBMED and ISI Web of Knowledge.

Accepted papers will be scheduled for oral presentation at the Congress, and the presenting author will receive **complimentary meeting registration** and a bottle of Tokay wine!

What to do:

1. Submit a manuscript (previously unpublished original research or review paper) to Cytometry Part A through the journal [website](#) by the 31st of August. Be sure to indicate in the cover letter that you are submitting in response to this call for Congress papers.
2. Submitted papers will be reviewed on a fast track, and the decision letter will be sent by October 10. Papers accepted without revision or accepted with minor revisions will be invited for oral presentation at the congress. (Papers needing major revisions will not be considered for oral presentation or inclusion in the Proceedings issue, but may be processed as regular publications if desired.)
3. If accepted, the final revised version must be submitted within two weeks of receiving the decision letter.
4. The accepted papers will be published in the APRIL 2008 issue of Cytometry Part A.

Important dates:

Deadline for submission	August 31, 2007
Notification of acceptance/rejection	October 10, 2007
Submission of revised paper	October 24, 2007
Deadline for Congress early registration	February 7, 2008
